

INDUCTIVE PROXIMITY Sensors & CABLE Connectors

We import Proximity Sensors and Connector Cables of high reliability and functional life due to the absence of mechanical parts and lack of physical contact between sensor and the sensed object.

Our Inductive Proximity Sensors are self-contained, solid state switching devices.

They sense the presence of metal objects by often emitting an electromagnetic field or beam of electromagnetic radiation and looks for changes in the field or return signal.

M30 Series

- Available in Short Body and Standard Body
- Negative, Normally Open
- Negative, Normally Closed
- Positive, Normally Open
- Positive, Normally Closed

M18 Series

- Available in Short Body and Standard Body
- Negative, Normally Open
- Negative, Normally Closed
- Positive, Normally Open
- Positive, Normally Closed

M12 Series

- Available in Short Body and Standard Body
- Negative, Normally Open
- Negative, Normally Closed
- Positive, Normally Open
- Positive, Normally Closed

Plug-In Connector Cables - Available in:

- 90° Angled 3 Meter
- 90° Angled 5 Meter
- 90° Angled 10 Meter
- Straight 3 Meter
- Straight 5 Meter
- Straight 10 Meter

Interconnecting Cables - Available in:

- Straight 3 Meter
- Straight 5 Meter
- Straight 10 Meter

Joining Connectors - Available in:

- Male
- Female
